1. PROBLEM1

Top 3 Problems:

- High Cost & Demo Barriers:** 1-on-1 coaching (\$150–\$300/hr) & mandatory demo calls are unaffordable for freshers.
- Ignored Non-Verbal Feedback:** Text practice misses posture, eye contact, body language, tone, and confidence. Existing AI tools hallucinate or lack structure.
- The Preparation Gap:** Friends are unavailable/inconsistent; YouTube lacks interactive feedback; standard resources fail to personalize to candidate profiles.

Existing Alternatives:

- Mock interviews with peers/friends (inconsistent quality & availability).
- YouTube prep videos (passive, zero personalized feedback).
- LeetCode / HackerRank (code-focused, no soft skills or video).
- Expensive human coaches asking for mandatory sales demos.

3. SOLUTION3

Top Features:

- Video & Body Language Analysis:** Gemini 2.5 Flash evaluates posture, eye contact, gestures, and confidence in real time.
- Voice & Text Interview Modes:** Gemini 3.1 Flash Lite + Groq for instant multi-modal practice and feedback.
- Profile Personalization:** Dynamic interviews tailored to Resume, LinkedIn, GitHub, CodeForces & LeetCode profiles.
- Anurag's Journey:** Seamless flow from profile upload -> personalized mock interview -> feedback -> AI job recommendations.

6. KEY METRICS6

- Paid Conversion Rate:** Target 10% (200 Pro + 200 Elite / 4,000 user cohort).
- Unit Gross Margins:** 95.1% Pro & 92.8% Elite .
- Net Profit Margin:** 82.15% Net Profit Margin (₹1,63,970 profit on ₹1,99,600 revenue).
- Break-Even Point:** 61 Paid Users (1.5% conversion rate).
- Active Engagement:** Completed sessions / user / week & score improvement delta.
